Personal Statement

I am a final year computer science student, currently enrolled in 7th semester at BBSUL University, specializing in React.js development. Through my training at Saylani Mass IT Training Program, I have honed my skills in web development front-end technologies. I am now actively seeking an opportunity to further enhance my practical knowledge and contribute to real-world projects. With a passion for creating engaging user experiences and a strong foundation in React.js, I am eager to apply my skills and learn from experienced professionals in the industry.

I have created a Furniture Store web application using React.js, redux toolkit and Bootstrap v5. In this application a customer can select any product he/she likes, that product will be added in the cart, he/she can increment/decrement quantity or remove items from cart and last he/she can place order.
